PEER GYNT

New CD !!
Out April 25. 2005!

With a captivating rawness and an explosive stage show, the Norwegian artist Peer Gynt has enchanted his public and the press in all of Europe and USA, with his magnificent musical charm and radiant performances.

With a unique collage of hard-hitting rock, bluesy-pop and Norwegian folk tones, Peer Gynt has managed to place Norwegian music on the international charts.

Since the release of "Første Akt" (First Act) on the Tylden label, his first video "Good Lord", and significant touring in and around Scandinavia, Peer is known as one of the most attractive live artists Norway has to offer, presenting his faithful audience with over 140 concerts each year, for the past ten years.

Fender and La Bella

In 1996, on a promotional tour in the USA, a Fender representative became aware of Peer's unorthodox style of guitar playing. As a result a sponsorship from one of the worlds leading guitar manufacturers was presented. In the same year La Bell strings also indoctrinated a contrast for the Norwegian artist. Both have been very helpful in connection with promotion and live performances.

International CD Release

In 2001 the German - American label, RUF Records, had the chance to hear Peer Gynt at one of his many festival dates in Norway. This resulted in the release of his CD *Fairytales* in 2002 on the international market. Followed by this release, was the opportunity to tour Europe with legendary bands like Walter Trout, Canned Heat, Manfred Mann, and Ten Years After.

Robbie Williams and Madonna

After an exhaustive year of international touring Peer Gynt began to gather a big interest in his home land again. In 2003 Norwegian TV viewers had the chance to catch a glimpse of the artist when his video *Sam's Café* (from the *Fairytales* CD), was shown on Norwegian Music Television (NRK 2 - Svisj), climbing straight to the top passing Robbie Williams and Madonna, and staying in the top 10 for just short of two months.

10 - year Anniversary

Peer Gynt will mark his 10-year celebration as a performer and CD artist with the release of a live CD and a new video. He has also planned to meet his international audience with dynamic concerts in 2005.

He has received countless unblemished critics from both the Norwegian, and international press
